SUMMARY

BSIT graduate with hands-on experience in web, mobile, AI, and IoT development. Skilled in React, React Native, C#, Java, Python, Supabase, and SQL, with experience building full-stack applications, AI-powered systems, and mobile solutions. Strong background in project leadership, UI/UX design, and collaborative software development.

EDUCATION

University of Cebu - Lapu-Lapu & Mandaue

Aug 2022 - June 2026

Bachelor of Science in Information Technology

Cumulative GPA: 1.361; *Magna Cum Laude*

Relevant Coursework: Software Development, Database Management Systems, Web Development, Mobile Application Development, Artificial Intelligence

EXPERIENCE

AI Executive Intern

Jan 2026 - May 2026

Lifewood Data Technology - Philippines, Cebu City

- Gained hands-on experience in Artificial Intelligence, automation, research, project management, and full-stack web development through real-world projects, technical documentation, system design, and business presentations.
- Developed AI-driven solutions, web applications, Power BI dashboards, and a Unity-based game, while leveraging prompt engineering and modern AI tools to enhance productivity, data analysis, problem-solving, and digital innovation.

Interviewer

Apr 2020 - June 2020

Public Employment Service Office (PESO), Mandaue City

- Conducted interviews with unemployed residents to gather employment-related information and assess job preferences for workforce placement programs.
- Promoted PESO services while developing strong communication, interpersonal, time management, and data collection skills.

PROJECTS

PassIT Learning Platform

May 2025 - Dec 2025

Next.js, React, TypeScript, Tailwind CSS, Supabase (Auth, Database, Storage)

- Developed PassIT, a full-stack web learning platform that streamlines IT Passport Exam preparation through mock exams, interactive quizzes, personalized progress tracking, and curated study resources.
- Served as Full-Stack Developer and UI/UX Designer, designing a responsive, intuitive interface and implementing secure authentication, cloud-based data management, and real-time performance tracking to enhance students' learning experience.

AIRA (AI Powered Recruitment Assistant)

Mar 2026 - Apr 2026

React, Vite, TypeScript, Node.js, Supabase, Tailwind CSS, React Router, Nodemailer, Gmail API, Gemini AI

- Developed AIRA (AI Recruitment Assistant), an AI-powered talent acquisition platform that automates applicant data collection, centralizes recruitment data, and streamlines candidate tracking, interview scheduling, and hiring workflows through an integrated management system.
- Served as a Front-End Developer, designing responsive user interfaces and implementing recruitment management features. Contributed to system architecture design, technical documentation, project presentations, and the development of automated email templates for candidate communications and recruitment processes.

WisEnergy: Mobile App, AI and IoT for Appliance Energy Monitoring and Optimization

May 2025 - Dec 2025

React Native, ESP32, Firebase, FastAPI, IoT, Artificial Intelligence

- Developed WisEnergy, an AI and IoT-powered mobile application for real-time appliance energy monitoring, consumption analysis, budget tracking, alerts, and energy optimization for households in Mandaue and Lapu-Lapu City.
- Led the project as Project Manager, Front-End Developer, and UI/UX Designer, designing intuitive user experiences and integrating sensor-based data collection, AI-driven recommendations, and interactive energy analytics dashboards.

CERTIFICATIONS AND ACHIEVEMENTS

- Outstanding Capstone Project (June 2026)
 - Best in Poster/Exhibit Booth (June 2026)
 - PhilNITS: Information Technology Passport (IP) Certification Examination (June 2026)
 - UC CCS 5th Research Congress - Poster Presentation Champion (May 2026)
 - Consistent Dean's Lister (2022 - Present)
 - UCLM Academic Scholar (2022 - Present)
 - Canva for Work (August 2025)
 - IBM SkillsBuild - Artificial Intelligence Fundamentals (July 2025)
 - IBM SkillsBuild - Working in a Digital World: Professional Skills (July 2025)
 - IBPAP Hackathon Challenge Participant (July 2025)
 - 11th ICT Congress Networking Competition 3rd Placer (April 2025)
 - UCLM College Days 2025 TECH Talk: Database Programming (April 2025)
 - UCLM College Days 2025 TECH Talk: Networking (April 2025)
 - UC Days 2025 Networking Competition - Champion (March 2025)
 - Cisco: Ethical Hacker (March 2025)
 - CCNA: Switching, Routing, and Wireless Essentials (March 2025)
 - 2nd Year Representative for PSITS-UCLM (September 2023 - June 2024)
 - 3rd place in the Applications Development competition (June 2024)
 - With High Honors (June 2022)
-

TECHNICAL SKILLS

- **Programming Languages:** C#, Java, TypeScript, JavaScript, Python
 - **Frameworks/Libraries:** React Native, React, .NET, Expo, TailwindCSS, Node.js, Vite
 - **Database:** Microsoft SQL Server, MySQL, Firebase, Supabase
 - **Tools & Software:** VS Code, Visual Studio, Android Studio, Unity, GitHub, Google Colab, Figma, Microsoft Office Suite (Excel, PowerPoint, Word), Google Workspace (Sheets, Docs, Slides)
-

ADDITIONAL INFORMATION

- **Languages:** English, Cebuano, Tagalog
- **Technical Interests:** Machine Learning, Artificial Intelligence, Mobile App Development, Web Development, UI/UX Design, Video Editing
- **Soft Skills:** Leadership and team coordination, clear written and verbal communication, analytical problem-solving, effective time management, collaborative teamwork, adaptability to new tools and environments, and fast learning ability
